<p><b>General Comments</b></p> <p>Environments set up with materials for children to engage with when in the indoor environments. A variety of choice is available for the children and children today were observed in play with art materials, magnet blocks, lego, and wooden blocks. A balance of indoor and outdoor activities were part of the children's day. Hand-washing was observed as children moved between activities in their daily schedule. Educators speak kindly and respectfully to children as they engage with them.</p> <p>As discussed with Program Coordinator, currently temperature checks for school age children are not required unless the program is running for a full day. Appendix E for each child ensures that parents are taking responsibility for screening their children before they go to school each day. Temperature checks for staff and visitors are required.</p> <p>Ensure full date including year is added to daily incident logs.</p> <p>Ensure date established of daily logs is accurate. This date reflects the date the "bubble" grouping was created and only changes if a child withdraws from the program or a new child joins the program.</p>
