Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<ul style="list-style-type: none"> <li>- Visit to the center to complete a monitoring inspection.</li> <li>- Ratio was respected during the visit.</li> <li>- The indoor space provides a large variety of material for children to explore, create and play. The space is safe, and the material is well maintained.</li> <li>- During the visit the outdoor space was being worked on, therefore, the children did not have access to the play structure. More protective surfacing was added and the non-encroachment zone around the swing set will meet regulations by the end of the construction. In the woods behind the house, there is a treehouse, further consultation will occur to ensure that regulations are met, recommending that children not use the tree house until CSA standards be reviewed.</li> <li>- I observed that the operator used positive child guidance technique, she was respectful to each child rhythm and is attentive to their needs.</li> </ul>
