General Comments
<p>Visit to the facility for an unannounced monitoring inspection -Ratio was respected during the visit – All necessary forms and information were present in children's records.          No medication stored on site at this time. Operator has a logbook in the event there is a need to administer medication.          Child guidance is done in a respectful and positive way. Educator observed engaged with children at their level, providing support and having conversations.          Observations: Some afterschool children arrived during my visit. Children were given the choice to play or watch a movie. There were not many children at the home as some children were home sick.</p>
