General Comments

The Quality Assurance Monitor is on site for the renewal inspection.

During the renewal inspection, the Quality Assurance Monitor observed indoor play, outdoor play and snack time.

The Quality Assurance Monitor and the administrator had a conversation regarding the door that leads to the kitchen in the children's play area. The administrator shared that the kitchen is not used by the daycare and that the children do not have access to this area. The Quality Assurance Monitor recommended that the door in the children's play area, which provides direct access to the kitchen, should be locked to ensure that the children do not have access to toxic products.

During the renewal inspection, the Quality Assurance Monitor was unable to access the vehicle used for transportation. The Quality Assurance Monitor will return on a later date to verify the vehicle.

The ratio was respected during the inspection.
