General Comments
The inspector is on site to conduct the renewal inspection. During the inspection, the arrival of children from school is observed, along with the afternoon snacks and indoor free play activities. A painting activity using apples, along with opportunities for free crafting, is also observed. A discussion took place with an educator regarding the outdoor play area. The designated area for school-aged children is the community park. Since this park is not part of the daycare's facilities, it was not inspected during the renewal inspection. It is the operator's responsibility to ensure that the outdoor play area is safe for children. Any safety concerns must be communicated with the community so that corrective measures can be taken. The ratio is respected during the inspection.
