<p>General Comments</p> <p>A Monitoring Inspection was completed this afternoon, at Grand Bay Treasured Adventures, Afterschool Program. The inside of the facility was inspected before the after-school children arrived. Several forms of documentation were observed throughout the facility. Well defined learning stations were observed. Each area contained documented learning stories, pictures of the children, and related arts & crafts. A conversation was had with Administrators about the steps leading up to the costume area. There is a rip in the carpeting, that will need to be monitored. Children were observed during outside play. While outside, children were observed playing in the woods -making forts, climbing swing ladders, playing in the mud kitchen, and collecting bugs. A group of children were observed playing soccer in the driveway, while others were observed making their very own homemade Pokémon cards.</p>
