Order for Compliance	Regulation	Date to be corrected	Date corrected
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (d) clean and in good repair.	32(1)(d)	Mar 21, 2025	
Comments: Dramatic play kitchen, art shelf and storage shelf accumulating rodent droppings and urine. It was determined that there is an ongoing issue with rodents within the building. It is evident the educators are cleaning before children arrive and throughout the day however, it has become difficult to manage due to the ongoing issues in the building. QA Monitor observed exterminators in the building during inspection. Facility has met with school to create a plan for pest control. Previous comply by date - Feb 21, 2025.			

General Comments
Monitoring Inspection: Children observed engaged in a variety of activities this afternoon including open-ended art, dramatic play Lego and reading books. The children and educators have finished creating their "Starbucks Drive Thru" children were observed pretending to work in their coffee shop and serving their peers. The facility has bought a handheld vacuum to help with clean up. It was reported to QA Monitor that all of the dramatic play costumes had to be thrown away due to rodent urine. QA Monitor recommended reducing the number of soft items in the room until further notice. Discussed dramatic play items that could be used instead of costumes. QA Monitor will increase visits to site to ensure improvements are being made with pest control. Monthly fire drills are documented. Daily attendance forms are complete and accurate.
