General Comments

The Quality Assurance Monitor is on site to conduct a monitoring inspection.
The child-to-staff ratio is maintained throughout the visit.

While on site, the Quality Assurance Monitor verified the following:

- Required postings were displayed in a visible and prominent location within the facility
- Child records included necessary documentation
- Signed parental consent was present in each child's file
- Incident records
- Outdoor play area materials and equipment were appropriate and in place

During the monitoring inspection, the Quality Assurance Monitor observed children engaged in outdoor play, transitioning from outdoor play to entering the facility, transitioning to lunch time, eating lunch, and then preparing for nap time.

A discussion took place between the administrator and the Quality Assurance Monitor regarding the section of the child's file that pertains to the medical practitioner. The Quality Assurance Monitor advised that if a child does not currently have a medical practitioner, parents may document this in the child's file. If the child is on a waitlist for a family doctor, this information should also be noted. It was also clarified that an after-hours clinic doesn't count as the child's medical practitioner.
