ELCC Licensing Staff	Position Title	

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments A renewal inspection occurred at the school-age program on November 26, 2024. All staff files were reviewed verified. Children's learning is documented and displayed on the walls. The children have been participating in activities with Nature NB and were observed going on a nature walk to work on their monthly projects as part of this program. Pictures of the children exploring nature areas around the school-age facility are documented and displayed so the children can revisit these experiences at their leisure. The program has a shared space with the school and the Inspector was shown all the materials that the children use and interact with when they have access to the area. During the inspection the children were observed outside on the playground adjacent to the facility. Inspector observed positive interactions between the school-age educators and the children in their care during the inspection.
