Order for Compliance	Regulation	Date to be corrected	Date corrected
12(2) An operator of a licensed facility shall ensure that a criminal record check or a vulnerable sector check, as the case may be, and a check with the Department of Social Development is conducted on each individual before he or she becomes a staff member.	12(2)	Jul 17, 2026	Jul 15, 2026
Comments: During the renewal inspection, the Quality Assurance Monitor observed that one staff member, who is now of legal age to complete the required verification, had only a criminal record check on file and did not have a vulnerable sector check. Each staff member must have a criminal record check/vulnerable sector check. The operator immediately contacted the staff member, who arrived later during the inspection and provided a completed vulnerable sector check. Deficiency is now compliant			

General Comments
The Quality Assurance Monitor is on-site to conduct the renewal inspection. The Quality Assurance Monitor is present during the morning indoor play period and at lunchtime. During the morning, staff members take one group of children on an outing. Upon their return to the facility, staff members from another group take the second group of children on an outing. The children are observed engaging in a variety of activities, including playing in the gymnasium, building structures with puzzle blocks, and constructing towers using shape blocks. A discussion takes place with the operator regarding a form in a child's file. The Quality Assurance Monitor recommends reviewing all documentation with parents to ensure that the information on file remains accurate. Any outdated or missing information should be updated as necessary. The designated outdoor play area is the school playground. As this playground is not part of the daycare, it was not inspected during the renewal inspection. It is the operator's responsibility to ensure that the outdoor play area is maintained safely and free of hazards for children. During the visit, the ratio is respected.
