General Comments

The inspection visit was a Wednesday and therefore the children arrived just before lunch time. When the children arrived at the centre they headed straight to the bathroom to wash up for lunch.

After lunch, the children engaged in free play activities, as well as, organized game activities. Some groups participated in a "basket ball" activity using cylinder baskets and a soft plastic ball. Other groups went to a near-by school playground to play, while another group engaged in an organized game of hockey in the gym located on site.

The educators were observed interacting, as well as, participating in the games that were being played. Only positive guidance was observed in all groups.

The children's files, as well as, the staff files were very organized and complete.

The centre is very clean and all toxics and medications are secured by a keyed lock.
