General Comments

Licensing staff arrived at facility to perform a Monitoring Inspection. Upon arrival the children had just finished eating lunch and were seen playing board games and coloring. Shortly after, an Educator announced to the group it was time to put away the games and coloring and get ready to go to Park Street Elementary School playground. After cleaning up, the children were observed using the washroom, getting their outdoor gear on and sitting together at the tables. Once everyone was ready, the children lined up and a head count was done as the children left the facility and boarded the bus.

Educators were well spread out on the playground to ensure proper supervision. Educators were seen playing a game of soccer with a group of children while others played on the play structures and swing set. An announcement was made that it was time to leave, the children ran and lined up outside the bus. A headcount was observed as the children boarded the bus to go back to the facility.

Once back at the facility proper hand washing was observed before the children sat down for afternoon snack. The tables were sanitized, and floors were swept before the children gathered in the gym area. One group went into a separate gym area to play x-tag while the other group prepared for a game of hockey. It is evident the children are familiar with the daily routine. Educators were engaged with the children, often joining in and playing the active games with them. During the monitoring visit, staff files were verified. Please ensure that all staff who have recently turned 18 have current vulnerable sector checks completed. A conversation was had with the Operator ensuring that this will be completed right away.
