Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jun 16, 2025	Jun 16, 2025
<p>Comments: During the renewal inspection, the Quality Assurance Monitor observed a bottle of children's Tylenol and laundry detergent on a shelf inaccessible to the children, but the lock was not closed on the door handle. All toxic products, chemical products, and cleaning supplies must be locked and inaccessible to the children.</p> <p>Toxic products, such as cleaning products, were found in the upstairs bathroom under the sink. The products were not locked. The children have access to the 3rd floor when taking their nap.</p> <p>The operator immediately locked the toxic products. Deficiency is now compliant.</p>			

<b>General Comments</b>
<p>The Quality Assurance Monitor is on site to conduct the renewal inspection. The ratio was respected during the inspection.</p> <p>The QAM observed that 9.5 hours of professional development were completed in the current renewal year. The operator has until the 31st of July to complete the 10 hours of professional development.</p> <p>The QAM observed the children playing in the outdoor play area. The children then transitioned for lunchtime. The QAM observed the children playing in forts, playing with costumes, coloring with crayons, and playing with Lite-Brites before naptime.</p> <p>The QAM did not observe the children waking up from naptime. The operator informed the QAM that the children do not sleep more than 2 consecutive hours. The QAM will observe the children waking up from their nap and eating their snack during a monitoring inspection.</p> <p>Positive interactions were observed between the operator and the children.</p>
