### General Comments

Upon arrival, I was screened, my temperature was taken and I was logged in. It appears that the center is following all COVID guidelines. Today the children were working on painting Easter eggs in each classroom. The children also had free play where they played with various materials such as blocks, tires, coloring supplies, paints, sensory bins and loose parts. The sensory bins are frequently swapped out and cleaned. There are natural elements and materials throughout the center, and children's work is displayed on the walls. Program planning is evident and the educators use planning binders. The children went outside after their Easter eggs were done. The outdoor area is very spacious and the children appeared to enjoy the play space.
