General Comments

When I arrived the children were going outside to play. The younger groups were still getting ready to go outside when I arrived and went out soon after. I was signed into the visitor log and it appears COVID protocols are being followed well.

I looked at programming and documentation during my visit. I noted that the educators are planning by writing ideas, plans, observations, and goals. It seems like a good system to use to do planning. They have also been using the CAT-RG to help them with reflections and with the environment. The classrooms are set up with centers and with a variety of interesting and age-appropriate materials. The educators will continue to work on program planning.

There were different types of documentation on the walls. I saw learning stories, pictures of children on the walls depicting their activities, some pictures contained short descriptions, and I saw some children's work around as well. I suggest to date all of the learning stories and other documentation, and I also suggest to tie the children's learning to the curriculum within the descriptions.

The center appears to be running well on the day of my visit with no concerns.
