General Comments
<p>One child was in attendance during the visit. The center is clean, bright and is decorated with children's artwork and learning stories. There is a variety of age-appropriate materials that are at the children's level and accessible at all times. The operator was observed sitting/kneeling at the child's level while using a calm and soothing tone with the child. The operator takes interest in what the child is saying and doing. Everything was in compliance during the visit. I recommend for licencing.</p>
