39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Nov 10, 2022	Nov 10, 2022
Comments: There were cans of paint that were unlocked in the bathroom. Toxic products must be lock by key. This was rectified before my departure.			

General Comments
<p>Upon my arrival the children were engaged in learning using different materials, one group was reading a book with their educator. They then gathered for circle time where they talked about indigenous culture. Afterwards, the children went outside.</p> <p>Since the last visit the space has been redesigned. The space is clean, organized and inviting. There are materials for arts and craft, puzzles, blocks, water play, materials for spelling and learning numbers. The staff were engaged with the children, observed helping them when needed like putting their outdoor clothes on and were also seen consoling children when needed.</p> <p>Positive child guidance was observed such as gentle reminders and encouragements.</p> <p>One staff member has a First Aid and CPR training that is not by an approved provider. The educator will be required to take a course with a provider that is approved by WorkSafe NB. In the meantime, this staff member cannot be alone with children, in the event of an emergency.</p>
