### General Comments

Visit to facility for regular spot check. Ratio was respected during visit.

Reviewed COVID-19 guidelines with operator. Reminded that all plush items / doll accessories and blankets must be laundered daily when they are being used by children.

Reviewed other play materials that are at children's display, encouraged use of natural elements as long as COVID guidelines are being followed.

Reviewed regulations on rest area and reminded operator that Health Canada states that playpens are not intended to be used for unsupervised sleep as they do not meet the same safety requirements and are not as durable as cribs, therefore playpens are not recommended for unsupervised sleep of children. If using playpens, it is recommended that operators remain on the same floor of the home as the napping infants and keep the door to the child's room open at all times (taken from operators manual).

### Observations:

Infant was napping during visit.

Preschool aged children were playing with play dough in the kitchen.
