General Comments
Ratio respected during visit for follow-up inspection. Discussion with operator: Recommended that the center enhance play areas by adding materials in art, literacy, science and dramatic play areas to ensure there are new learning opportunities available to children. Storage solutions were discussed as center is in a temporary space. Discussed with the operator children's use of digital technology (television). Recommending the operator and staff read the section 7.3 in the operator's manual on digital technologies. Observations: The facility meets licensing requirements under the Act and the regulations, recommending licensing for another year.
