Order for Compliance	Regulation	Date to be corrected	Date corrected
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (b) arranged on low, open shelves and accessible to the children receiving services at the licensed facility,	32(1)(b)	Oct 28, 2025	Oct 28, 2025
Comments: During the inspection of two infant classrooms, the inspector observed that art materials are not placed on low, open shelves accessible to the children. The inspector informed the administrator, who then discussed the matter with the educator. As a result, some art materials were placed on low, open shelves to ensure accessibility for the children. Deficiency is now compliant.			
41(1) A licensed facility at which services are provided to children who wear diapers shall have a sturdy surface that is (b) covered with a non-absorbent layer.	41(1)(b)	Nov 14, 2025	
Comments: During the inspection of the diaper changing surface, the inspector observed that the mattress had visible tears. It is important to note that changing surfaces must be covered with a waterproof and easily cleanable material. A torn mattress is difficult to clean properly, which compromises disinfection after each use.
