General Comments

Name of operator

During the renewal inspections the inspector was fully screened by the director before entering the daycare. Proper screening documents are being used and cleaning schedules have been created and are being used. Inspector recommends that the staff add their initials once a task is complete to ensure they are all being done and changing the word sanitizer to disinfect when applicable. Inspector discussed with the staff on site about the COVID recovery phase and how they are ensuring the safety of themselves and the children onsite.

In order to facility the identification of each classroom during inspections a recommendation was made too label the classrooms. Director on site has named the classrooms by letters from A to E.

When doing outings or excursions the center must create specific consent forms as stated on page 44 of the Operator Manual for Part -time and Full-time Early Learning and Childcare centers. When outings resume before an outing occurs the parents must sign consent forms.

Inspector and director discussed futur plans of renovations and how they will ensure the children's safety during construction time.

During time of inspection the inspector observed positive interhealth procedure while preparing the food, Healthy snacks an	. 9
