Name of Early Learning and Childcare Licensing Staff Amanda Wills		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
A Monitoring Inspection occurred October 28, 2025 The children were observed in both the indoor and outdoor environment. Including transition between the two. Indoors, children were observed engaging in play with puppets and exploring a Halloween themed water table that included pumpkins, colored water, and scoops. Outdoors, children were observed running and digging in the pea gravel. Educators indicated that the children are currently very interested in Halloween and dinosaurs. Documentation was visible throughout the room which included, photographs, learning stories, individual portfolios, and individual and group artwork. Educators demonstrated positive interactions by using encouraging language and gentle reminders. They asked open-ended questions, listened actively, and extended children's ideas through conversations. A clearly visible and prominent area was designated for posting the facility's license, current monitoring reports, and any orders for compliance. Additional documentation observed included incident logs, daily attendance records, individual child profiles, and records of evacuation and monthly fire drills. A conversation took place with the administrator regarding the following: A wooden structure in the dramatic play center was observed to be broken. The educator removed it during inspection until it can be repaired. Educators are to ensure that outdoor materials are consistently available and accessible to children for the entire duration of outdoor play.
