### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, one group was in the front gym playing active games and another group was in the back gym, also playing active games. Groups were seen playing Shipwreck and Tag. After a few games, the Educators had the children line up and prepare to go to a nearby park.

The children were observed using the washroom, filling up water bottles and putting hats and mittens on before departing for the park. A headcount was completed before leaving the facility. First aid kits and emergency contacts were brought on the outing. Once at the park the children were observed playing active games, climbing the play structures and swinging on the swing set. A headcount was observed before the children loaded the bus back to the facility.

Only positive child guidance was observed during the Inspection. While in the gym playing active games, a child fell, hurting their foot. The Educator was seen comforting the child and got them an ice pack. Educators were engaged with the children and the children appeared familiar and comfortable with the routine. The transition periods throughout the afternoon were calm and smooth. The classroom is clean and organized. Fire drills were posted and up to date. Child profiles were reviewed and contained all required documents.
