ELCC Licensing Staff Nancy Glendenning	Position Title Inspector	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Today in casual care the regular educators were in a meeting and some of the educators from the other license came to fill in. The educators remained very engaged with the children. Infants were rocked, held and comforted. For those that were mobile, the educators were visibly seen on the floor with them.

In the preschool section there was a child who was fairly new to the program and appeared upset. One of the educators followed their lead towards their interests and comforted them as needed.

The documentation for the children was not visible on the walls at the time of visit. The administrator advised licensing staff that the documentation was taken down as the walls require painting. The public health inspector recommended that the painting would occur as surfaces need to be easily cleaned. Once this is complete please ensure that documentation for children is posted.

The educators had invitations for play set up prior to the children's arrival. There is an abundance of materials and learning centres set up for the children.

Child profiles and immunizations were evident for the children. The educators advised me that they have not had to use potential illness forms. Please ensure that children's first and last names are included on any document required for licensing purposes.

I can now recommend facility for licensing.
