General Comments

Licensing Staff arrived at the Facility to perform a Monitoring Inspection. Upon arrival the infants were outside in the playground while the 2's played games on the ramp by the building. The facility has a schedule for the fenced in playground to ensure all children have outdoor time in the morning and afternoon.

While outside the children enjoyed playing with scooters, the sandbox and playing on the structure with a slide. The playground was tidy, and sandboxes are covered when not in use. The Educators were well spread out while on the playground and were observed playing with the children.

Hand washing was observed with the Infant group as they transitioned inside for lunch time. One Educator sat with the children singing "If you're happy and you know it" while the other Educator individually washed their hands. Bathrooms were clean and cleaning checklists were posted and up to date. One of the rooms was doing a deep clean today as they have a few children out sick. Potential illness forms were observed during today's inspection.

Positive child guidance was seen throughout the Inspection. Educators were seen offering hugs and using words of encouragement "You're doing a really great job!". The classrooms offered a variety of materials such as books, wooden blocks, musical instruments, flash cards and art material. Family pictures, birthday walls and the children's creations were seen in all the classrooms. Allergy lists were observed in each class and the Evacuation Plan. As a reminder, please ensure planned activities are child led and age appropriate. A discussion was had with the Manager about the missing trim in the 2's class.
