General Comments
<p>One the day of my visit the center was running quite smoothly. The educators were communicating and working well together. I heard plenty of positive guidance and observed the educators engaging with the children.</p> <p>The children were getting ready for snack. The educators made sure the children washed their hands before snack. The snack was watermelon and crackers. After snack the children prepared for outdoor play time.</p> <p>I reviewed the administrative records and all were in proper order.</p> <p>When reviewing classroom documentation I did not see evidence of planned activities and documentation.</p> <p>Please review section 7 of the Operators manual for Programming and daily routine to ensure that the children's learning is documented and displayed in the classroom.</p>
