| When I arrived the children were getting ready to go outside. I was able to come into the entry way while they were getting their snow suits on. I was able to see the information board. Everything was posted and up to date. I advised the Operator to update the QA Monitor information on the board.  I was given a tour of the outdoor play space. There are many natural objects and trees for shade in the summer. They had been working on building a large dragon snow sculpture.  The children were all happy and enjoy their time outside. |                |                |                      |                   |                |  |
