General Comments
<p>On the day of my visit the program was working really well. Learning stories and examples of the NB Curriculum were on display. The children and Educators are very engaged in cooperative co-creation of their Curriculum and the classrooms are beautifully decorated to become an inspiring environment that becomes the third teacher.</p> <p>In the 3's room the children are interested in pets, dinosaurs, building and calendars which is evolving into time and schedules.</p> <p>In the 4's classroom they were interested in space and this has evolved into robots. Everyone is playing outside in their own fenced in play area which is set up very well as an outside classroom.</p> <p>There were no compliances and Lynnette is very organized and the administrative work is all well done.</p>
