General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival the children were having free play before gathering on the mat for story time. The Educators did a great job recognizing the needs of the group and decided to stop the book and switched to a song/dance "I'm Trusting You." The children were excited to sing and dance along to the song. The Educators were seen dancing and singing with the children and giving high fives throughout the song.

Hand washing was observed as the children prepared for morning snack. The Educators were seen offering assistance when needed and were heard giving gentle reminders, "Let's sit on our chair with our feet on the ground. Great job having your listening ears on!" After snack, one Educator stayed in the classroom as the children used the washroom while the other Educator went in the hallway with the children who were ready for gym class. The tables were sanitized after snack and floors were swept. A final headcount was done before the group walked to the gym for active games and a dance party.

Throughout the visit the Educators were observed engaged with the children at all times. Offering kind words, hugs and re-directing when needed. Each transition in the morning routine was smooth and calm. The Educators did a great job at following the interests of the children throughout the morning. After snack the children were talking about animals. Once they arrived at the gym, an Educator acknowledged that interest and put animal action songs on for the children. Attendance records are being completed as the children arrive and allergies are posted in the classroom as well as the Evacuation Plan. As discussed with the Operator, it is recommended to add pictures of the children and documentation throughout the classroom.
