Comments: While QA monitor was on site, cleaning supplies and toxic products were observed inside one of the cabinets in the kitchen without being locked. Toxic products, chemical products and cleaning supplies must be locked and inaccessible to children. Administrator immediately locked them. Deficiency is now compliant			

General Comments Visit done at the center for a monitoring inspection. Ratio was respected during the visit. During the visit, the Quality Assurance monitor verified: - storage space for toxic products, chemical products and cleaning supplies. - Child guidance - If all necessary documents were posted in a visible and prominent place in the facility. While QA monitor was on site, she was able to observe children play inside and eat snack. Children left the facility to go to the school on the other side of the street to play at the park and to enjoy the nice weather.
