Comments: Please read comment below.			

<p><b>General Comments</b></p> <p>Monitoring visit performed.</p> <p>Today the Operator only has her own children on site. School is closed due to an operational day and she has no other children in attendance. The operator was closed on Wednesday and Thursday this week due to illness. Operator's children that are under the age of 12 are included in the numbers, so if your facility is closed due to illness, you should document this on your attendance record. I observed attendance has not been documented since Tuesday. As stated above attendance must be documented and the reason for absences. Please commence going forward and record. Thank you</p> <p>I reviewed attendance and fire drill records during my visit. This must be recorded monthly.</p> <p>During a previous conversation this week with the Operator, she indicated that her hours of operation had changed from 7-4:30. The Operator will send me a copy of her updated handbook updating current hours, that parents advise the days of the week they need her service for the following week, and also in the event of illness that the operator will provide as much notice as possible, in the event she needs to close.</p> <p>Please keep pet information in your file to ensure immunizations are current.</p> <p>The operator showed me an updated copy of her FA certificate during my visit. Thank you!!</p> <p>Just a kind reminder that your Renewal application is due for November 1st.</p>
