### General Comments

The first group of children arrived around 2:15.

When they arrived, the children went upstairs to wash their hands, then they came back to the classroom and helped the educator set up the chairs for snack. The educator was heard thanking the children for their help while setting up the chairs and then the educator talked to the children about myths and legends while they were eating a snack. After snack the children played, they were seen doing cartwheels and racing games. The educator was also playing with them.

The children have all the minimum requirements of materials as per regulation, such as but not limited to; blocks, puzzles, art supplies, science and math materials. They also have sports equipment they can use indoors in their open space such as badminton rackets, baskets balls and skipping ropes.

The educator was engaged with the children, providing gentle reminders when needed, she was also heard providing positive reinforcement and commenting on their accomplishments.

I recommend adding seating in the sensory area.

Everything is in compliance, I recommend for renewal.
