Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Educator had just left to walk over to the school to pick up the K-2 children when I arrived for today's monitoring inspection. Once children arrived from school, they were asked to wash their hands. Educator accompanied children to wash their hands. After snack, children were able to play freely around the room. Educator was quick to notice that the children were beginning to feel rambunctious and suggested everyone play a group game of hide and go seek tag.

Educator ensured children were appropriately dressed for the weather before heading back over to the school to pick up the grades 3-5 dismissal children. After dismissal, educator once again ensured children were appropriately dressed as they stayed outside to play for an hour or so.

Educator was observed being attentive to the children at time of visit. Observed educator providing gentle reminder to children when needed, she was also observed ensuring she got down to the children's level when speaking with them.

When children were being picked up, educator ensured to speak with each adult to fill them in on their child's day.

Go-Go After School Nashwaaksis is considered a mobile site, which requires educators to set up and tare down the gym every day. While setting up the indoor environment, educators ensure that it is set up in a way that promotes independence by arranging all play material on low shelves so that children can have the choice to pick their own toys.

Please ensure that the appropriate amount of hand washing sinks and toilets are available at all times. Go-Go Nashwaaksis is licensed for 60 children; therefore, there needs to be a minimum of 4 hand washing sinks and 4 toilets available. Moving forward, children will also have access to the washroom's downstairs.
