General Comments

Children were in the outdoor play area upon arrival of licensing staff. Children were observed to be engaged with several different activities while in the outdoor play space. The outdoor play space now has an art area, mud kitchen, playhouse and several sand and outdoor materials available for children to choose from. Children were observed playing with large sticks and driftwood and have weaved them to form a structure that they can sit in and build on and add to.

The indoor play area has been organized since last monitoring inspection and the clutter has been reduced. The classrooms present as calm and inviting for play with all materials being well organized and available at the children's level.

The afterschool area has also been reorganized to contained several activities centres including lego, dramatic play and an office and art area.

The parent board should be updated as the Quality Assurance Monitor contact information was incorrect. QAM Jenelle Hanscom can be contacted at jenelle.hanscom@gnb.ca

Plan for life threatening allergies should be updated as the EpiPen is not locked and is readily available for use in emergency situations.

Documentation of learning is now posted in the facility and is being linked to the New Brunswick Curriculum.

Postive behaviour guidance was observed at all times.
