General Comments
<p>When I arrived, the children were playing at different stations. Soon after, they all got ready to go outside. The educators set up the sprinkler for them. The children made a water river by digging a canal into the other playground and a group played in the river with cars. One group was building a wall with the blocks. Some were sitting at the picnic tables. Two new sandboxes were added since my last inspection. There are a lot of shade and picnic tables with umbrellas for the children to sit on during hotter days. Educators were attentive and playing with the children both indoors and outdoors during the inspection. They were also observed providing gentle reminders to the children when needed. Educators were also heard providing positive reinforcement. While outside, staff were heard reminding children to take water breaks considering the hot weather. The Centre is clean and there are lots of materials of different interests available to the children. Everything is in compliance, I recommend for renewal.</p>
