Comments: Deficiency is now compliant			

General Comments
<ul style="list-style-type: none">- Visit done at the center for a monitoring inspection.- Ratio was respected during the visit.- Hot beverages are not allowed at all time in rooms with children.- Documentation was seen in all rooms mostly into portfolios. I recommended that early childhood coordinator comes in for visits to bring support to educators on their ongoing learning with the curriculum framework and give them suggestions on creating zones into each room.- During my visit the little ones were waking up from their nap, some of them were having a snack other were in free play. The school age children arrived from school; one group went to play outside the other had snack.
