| <p>General Comments</p> <p>Visit at the facility to complete annual inspection. Ratio was respected during the visit.</p> <p>Discussion regarding new fixed structures. Operator is aware of the manufacturer's requirements regarding surfacing and children are not utilizing equipment until surfacing is installed.</p> <p>Discussion regarding professional learning hours. Operator is aware that a staff member who works directly with infants or preschool children shall complete in each year 10 hours of training approved by the Minister related to the curriculum used at the designated facility.</p> <p>Observations: Various types of documentation are present in each room that display the children's interests and what they are learning. School aged children were not present as they were in school. When I arrived, infants were coloring, the 2-year-olds were at the table with loose parts, and the 3-, 4- and 5-year-olds were into free play. All children washed up, had lunch and prepared for the rest period.</p> |
