General Comments
<p>The visit to the facility was conducted in the morning as part of a monitoring inspection.</p> <p>At the time of the visit, the educator-to-child ratio was compliant with current regulatory requirements.</p> <p>Following a review of 12 children's files, it was confirmed that all files were complete. The children's profiles and all required forms were completed appropriately, legibly, and signed where required.</p> <p>The consent forms contained in the children's files were all complete and met regulatory requirements. Each form had been properly signed by the parent or legal guardian, and the date was clearly indicated.</p> <p>A minor incident log is maintained and kept up to date. Parents are informed of any incidents and sign the log to acknowledge that the information has been communicated to them.</p> <p>Upon my arrival, the group of 2-year-olds and one group of 3-year-olds were outside. The infant group and the second group of 3-year-olds were preparing for lunch. The children ate lunches brought from home in their lunch boxes. Following lunch, the children went to the washroom before preparing for their nap.</p> <p>No concerns were observed during the visit. The facility maintains good administrative practices and ensures adequate supervision of children in accordance with regulatory requirements.</p>
