General Comments

Preschool children were observed engaging in free play upon arrival of licensing staff. The room was well organized, and the children had the opportunity to explore a variety of play materials. Children were playing with green play sand, puzzles, kitchen dramatic play materials and other items throughout the inspection.

The preschool program has just begun for the year and all children appeared to be well adjusted and engaged throughout the monitoring inspection.

School age children were not present at the time of the monitoring inspection.

Positive behaviour guidance was observed at all times.
