### General Comments

Children were outside playing when I arrived. Once they came in, they went to wash their hands, when they were all finished, the educators gave the children who wished to have snack the opportunity to have snack, and the others were able to play freely around the room. Once snack was over, and all children had a sufficient time to "free play" in centers, the children were provided the opportunity to take part in a planned craft activity. The children finished off the day with going back outside to enjoy the warm weather.

Observed educators taking the time to visit each individual group/child that were scattered throughout the room playing, taking an interest in what every child was doing and also taking the time to speak with everyone.

Educators were observed doing a great job at reminding the children to wear their masks correctly when need be.
