

Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator Go-Go Group Inc.	Licence Number 2016086	Inspection Date October 19, 2021
Facility Name Go-Go After School Two Nations Crossing		Telephone Number (506) 455-5496
Address 80 Two Nations Crossing Fredericton NB E3A 0H2		
Name of Early Learning and Childcare Licensing Staff Jennifer Godin		Position Title Quality Assurance Monitor

Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Oct 19, 2021	Oct 19, 2021
Comments: Deficiency is now compliant Observed a storage closet in the hallway that contained toxic products (Lysol, Tide pods, oxy carpet cleaner, etc) that was not locked when I arrived. Manager was able to lock it at time of inspection.			
9(1) The child-to-staff ratio is one educator for each of the following groups of children of the same age receiving services at a full-time or part-time early learning and childcare centre: (a) three infants or fewer; (b) five children or fewer who are two years of age; (c) eight children or fewer who are three years of age; (d) ten children or fewer who are four years of age or older, but who are not yet attending school; and (e) 15 school-age children or fewer.	9(1)	Oct 19, 2021	Oct 19, 2021
Comments: Deficiency is now compliant Observed 32 school age children in one room with three educators. Due to regulation 9(5), stating that ELC facilities are unable to have more children in a room than a ratio permits for two educators, meaning the child-to-staff ratio was greater than 30:2. Additional educator was able to bring the two additional school age children to a different room, bringing the facility back into compliance.			
9(5) The number of children grouped at a full-time or part-time early learning and childcare centre shall not be more than the number that requires two educators.	9(5)	Oct 19, 2021	Oct 19, 2021
Comments: Deficiency is now compliant Observed 32 school aged children in one room with three educators at time of visit. Once educators were reminded that ratio can not exceed the number of children for two educators (child staff ratio for school age children is 15:1, meaning there should never be more than 30 children and 2 educators per room), one educator took 2 children over to the other room to play while waiting for the second bus to arrive.			

General Comments
Facility recently underwent renovations to install windows in the wall that divides the classroom and hallway/cubby area. The windows brighten up the classroom, help with supervision purposes, and offer parents

General Comments

the opportunity to look into the classroom to see their child play.

Educators were observed constantly interacting with children during time of visit.

I observed a child advise their educator that the paper towel dispenser in the classroom was empty. The educator responded, "shake your hands" and did not fill the paper towel dispenser. I observed the child proceed to shake their hands/wipe them on their pants to dry them, the paper towel dispenser had still not been filled. Please ensure that paper towel dispensers are promptly filled when need be so that children can properly dry their hands, as shaking your hands/wiping on them on your pants (or shirt) is not a handwashing best practice.

A reminder, as per July 21, 2021 monitoring visit report, the storage closet in the hall that contains toxic products must be locked at all times. Also, should other storages closets contain items that are unsafe for the children, it will be required to be locked as well.
