General Comments
<p>Children observed in the indoor classroom and outdoor play area during inspection. Children were observed to be content and engaged as they played alone and with others.</p> <p>The indoor classroom has been divided to ensure children from separate groups can maintain their bubbles at the end of the day. There are a variety of materials available on both sides of the room providing choice for the children in what they want to play with.</p> <p>Art appears to be a favourite activity with many creative drawings and art projects posted in the room.</p>
