General Comments
<p>A renewal inspection occurred today.</p> <p>The room divider has been pulled across to separate the area into two rooms. This has enhanced the area greatly. The children's artwork is displayed on the divider wall, the noise level in the room is reduced, the rooms appear larger. When speaking with the educators they, for the most part, liking the room division.</p> <p>Recommending going forward, leaving the room divider pulled between the two rooms to separate them.</p> <p>The children were observed in both inside and outside play. While outside it was noted that new swings have been added to the school play area. There is mulch underneath, however there is insufficient surfacing, and the children are not permitted to use these until more mulch is added. Recommending a rake be used by the educators to ensure that the mulch is pulled from under the platforms under the fall zones.</p> <p>The educators were observed speaking kindly to the children during the inspection and redirecting behaviors approximately.</p>
