General Comments

Monitoring Inspection:

Children and educators were observed during outdoor play this morning. Children were engaged in a variety of gross motor activities. A small group of children were observed searching for worms and bugs.

The indoor play area is set-up with a variety of invitations and materials for the children to explore freely. The dramatic play area has been turned into "an emergency room" to support the children's interest in doctor. Educators stated that their interest has started to expand into Veterinarian; they have begun planning on adding animals to transform the Emergency Room to a Vet Clinic.

It was observed during outdoor play some materials are lacking for the number of children enrolled and children were observed to argue over some of the favourite materials. Examples of materials to be added materials for digging (shovels, scoops, spoons, rakes) materials for filling or carrying (baskets, buckets, pots, bowls), balls and larger push type vehicles.

Monthly fire drills are documented.
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.
New staff file (1) review was completed; all required documents are in place.
Facility is currently meeting the 50% trained Early Childhood Educators (2/3) requirement.
