General Comments

When I arrived at the center it was almost snack time. The children all had their hands washed and sat at the table for waffles, bananas and milk. As the children finished their snack and activity was brought to the table for them to play with while the other children finished eating. After children had finished eating there was a short play period then the children had diapers changed and got ready for outdoor play in the backyard.

I was given a tour of the outdoor play space. The children were enjoying digging in the pea gravel and making bubbles.

The center is very clean and organized. The operator is very busy with the children.
