General Comments

Licensing Staff arrived at Happy Faces Home Childcare to introduce the new Quality Assurance Monitor and to perform a Monitoring Inspection. Upon arrival, all children were napping, and the Operator was in the process of getting afternoon snack ready for once the children woke up. Afternoon snack matched what was posted on the menu, peppers and cheese with crackers.

Once the children were all awake, cots and napping materials were stored separately, and the children used the bathroom and washed hands to prepare for afternoon snack. While the children ate, they were engaged in conversation with one another and the Operator about their Halloween costumes and what they would like to be when they grow up. As the children finished eating, hands and faces were cleaned. The Operator stated the children have been showing an interest lately in puzzles. The children were eager to show Licensing Staff how they could put together different puzzles all by themselves. Later in the afternoon the children packed their personal belongings and transitioned to the outdoor play space.

The indoor environment was bright, organized and welcoming. The Operator spoke calmly and kindly with the children. Only positive child guidance was observed during today's Monitoring Inspection. The Operator was heard offering encouraging words and praise as the children were engaged in activities. The posting board contained all required documents and attendance records are being completed.
