39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	May 21, 2021	
Comments: Toxic/chemical products in the downstairs bathroom must be moved to an area under lock and key, or a lock must be added to that cupboard.			

General Comments
<p>Visit to facility for annual inspection. Ratio was respected during the visit. School age children were not present as they were in school.</p> <p>Ensure that when educator turns 19 and has completed the CPR course it is added to her file.</p> <p>The second surface (grass) in the outdoor play area is becoming scarce. Recommending more grass area be added or alternative be used in order to meet 2 surface requirements.</p> <p>Observations: 3/4 year olds were outside when I arrived. They come in, had lunch and free play. The children played together building a house with blocks. 4/5 year olds were participating in a group activity "Mr.Freeze", that provided them with the opportunity to use their imagination, make their own observations, predict and problem solve. This group also had lunch went outdoors during my visit.</p>
