General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, one Educator was observed making a sugar scrub with a small group of children. The children smiled and laughed as they filled their container with the scrub to bring home. The other Educator was observed playing a game called "Werewolf". The Educator was enthusiastic and ensured that all children were involved in the game.

As the children lost interest in the activities, they were observed having free play before having afternoon snack. At one table, an Educator played foosball while others played marble run and mini stick hockey. The Educator was heard giving the group verbal reminders before it was time to clean up for snack. The children were observed washing their hands before sitting down to eat. Due to the warm temperatures, the children stayed inside for the afternoon.

Staff files and child profiles were reviewed during today's Monitoring Inspection. The files were organized and contained all required documents. Only positive child guidance was observed. The Educators on site were actively engaged with the children and the activities throughout the afternoon. They were attentive to the needs of the children. The Educators were observed guiding children through conflicts and disagreements.
