General Comments

The Quality Assurance Monitor was on site for a monitoring inspection.
Ratio was respected during the visit.

While on site the Quality Assurance Monitor was able to observe children playing indoor. The educators had a valentine's day craft set up for children, each child had a heart with their name on, the hearts were spread all over on a table for everyone to go on all of the hearts and write positive messages about the person. One educator had a white board at the table and was writing the words for the children to copy as they were saying them.

The Quality Assurance Monitor was able to observe the educators walk around the room and engage in children's playing. Positive interaction between educators and children were also observed.
