| General Comments |
| <p>When children arrived from school, they stayed outside to play in the snow. Children were observed sliding, while their educators assisted them in trying to make the slide longer. After children had some time to finish playing outside, they all went inside together for snack. Children have the option of either having snack or play freely around the room.</p> <p>Educators were observed being attentive and interacting with the children at time of visit.</p> <p>Administrator informed me during today's visit that facility is no longer providing snacks. For future reference, please ensure that when changes are going to be made, that a Change in Service form is filled out and sent into the department so that the appropriate steps can be followed in order for the changes can be made. Quality Assurance Monitor will email the appropriate change form.</p> <p>A reminder to ensure facility is performing emergency evacuation drills on a monthly basis.</p> <p>A reminder that when children are required to be sent home due to them not feeling well, a Management of Potential Illness Form is required to be filled out, signed by parent/guardian, and placed in the child's file.</p> <p>Please note that should operator ever be in ratio; she is required to have her first aid renewed.</p> |
